

# Karori Junior Hockey Club

## Registration Eligibility

### 1. Hockey in Wellington

---

There are generally about 20 or more registered schools and clubs in the Mini, Kiwi and Kwik divisions that Wellington Hockey Association administer. As hockey has a nationwide growth strategy in place, all clubs and therefore WHA are growing. KJHC has grown considerably over recent years and it is anticipated this growth will continue. To ensure our growth is managed our Club limits registrations to children living or going to school in our local community.

### 2. Rationale for Establishing a Local Community Area

---

- To manage our club's growth, by registering local players only.
- To maximise our player development opportunities for children in our local community.
- To minimise administrative load and disruption that can be created through children trialling for multiple clubs or schools.
- To promote an environment where we collaboratively grow hockey across all clubs in the Wellington region.

### 3. Suburbs in our Local Community

---

The KJHC community area was developed by analysing historical suburban data that demonstrates a longstanding tradition of where our members have come from. Children living or attending school at the time of the joining the club in our local suburbs of: **Makara, Karori, Kelburn, Northland, Wilton, Thorndon, Wadestown, Kaiwharawhara, Crofton Downs, Ngaio or Khandallah** are eligible to register to play for KJHC.

The KJHC Committee can exercise its powers to approve exceptions to this policy. Where an exception is agreed to, this will be documented in the committee minutes. The Club also notes Wellington Hockey Association requires permission be sought for any U13 representative player who wishes to transfer to an alternate club.

### 4. Authority and Review

---

Authorised by: KJHC Committee 2017  
Date: 6 November 2017  
Review date: As required
